Sec. 562 P. L. & R. Permit 277

WE OFFER no apology for this year's list; we are saving time, labor, materials and postage, and though we have reduced the number of items so far as possible you will find over thirty new and interesting items listed; if the form is not so attractive its purpose is just as high as ever and if it does not produce more or as much business as usual we will at least have done our bit; there will be no fall list this year so if you require fall delivery best to order now and insure delivery of the plants you want when you want them; we shall ship the same high quality of plants as usual and as usual prices include transportation east of the Mississippi with delivery in good condition guaranteed; we have curtailed descriptions drastically, there are still available some of last season's catalogs with more complete descriptions, if you have mislaid yours we will be glad to send you one as long as they last.

PARAMOUNT GARDENS — ARTHUR H. OSMUN

57 Sandford Ave., Plainfield, N. J.
